MESSAGE

I am happy to note that **Impact Group of Colleges, Patna**, in collaboration with **IXORA Research Association**, is organising a Multi-disciplinary International Conference on "**Contemporary Trends of AI in Multi-disciplinary Research**" during 6th-7th April 2026. The theme of the conference is highly relevant and imperative, as Artificial Intelligence continues to reshape the landscape of modern research and professional education.

This conference serves as a timely and vital platform for interdisciplinary dialogue, knowledge exchange, and providing researchers and students with well-deserved recognition for their contributions.

I commend the organizers for their vision in convening this international conference and providing a platform for eminent scholars, teachers, and students to deliberate on these evolving trends. Their collective insights will undoubtedly contribute to shaping sustainable academic strategies and technical solutions that will help bridge the gap between traditional research and futuristic technology. I am sure that the outcomes of this conference will benefit the academic community in general and the state of Bihar in particular.

I wish the Multi-disciplinary International Conference a grand success and hope it marks a significant milestone towards research excellence and academic development.

Jai Hind !
