## MESSAGE

It gives me immense pleasure to know that a Multi-disciplinary International Conference on the theme "Contemporary Trends of AI in Multi-disciplinary Research" is being organised by IMPACT College at its main campus, Sampatchak, Gaurichak, Patna.

The conference, to be held on 6-7 April, will provide a platform for researchers, scholars, erudite teachers and creative students to present their papers and receive well-deserved recognition.

Furthermore, the conference will help IMPACT build a research-based academic milieu on the campus, shifting the teaching standard from the memory level to understanding and reflective models. This, in turn, will foster in-depth insight into subjects, encourage critical thinking and improve employability.

I firmly believe that the congregation of researchers and distinguished scholars, along with their paper presentations at this multi-disciplinary conference, will certainly enrich our knowledge and expand our understanding of the multiple uses of AI, its major benefits and its responsible application.

I wish this purpose-driven conference the epitome of success.

My best wishes to the organisers and every member of IMPACT for their endeavour.

With warm regards,
